

Anthony Peccia

All things are possible with God!

First and foremost I want to praise God for His goodness and mercy that endures forever!

I had used drugs for 23 years, you name it (the drug) and I did it But by the grace of God I stopped at age 37. During these years I would read a Bible that I had from time to time, even when I was high on drugs, knowing what it said was the truth!

Wow!What an awesome God! He came to me in my addiction! In my sin! I also studied with the Jehovah Witnesses for about 1 year, then I realized that it was a false cult. I was still using drugs and almost lost my job & my life. I went to a Drug Rehabilitation Center for two weeks. After I had gotten out, I stayed drug free for awhile - then used again off and on for a time.

I knew in my heart that Jesus was the only answer. I started to listen to preachers on the radio and television. I was hungry for the Word of God. Then one Sunday morning the Holy Spirit put it on my heart to go to church. I went to several different church's within a months time - none seemed right. Then I went to Syosset Gospel Church one Sunday morning and I knew this was the right church. God's Word convicted me to tears. I finally found what I needed (what we all need) - the Truth, the Word of God!

I knew I was a sinner in need of a Savior, and to be completely forgiven of my sins. A short time later I started playing drums with the Worship Team. In 1997 I was baptized and after that, that is when I truly

felt devoted to serve the Lord. A few years later the Lord answered my prayer and gave me a wonderful Christian woman, Erika. Erika and I have been married now for 7 years with two great children; Christian who is four and Faith who is two. All things are possible with God! Amen.
